## Unnatural Causes

**Tuesday, March 9, 6:00**

**Eugene Public Library, Downtown ■ Free**

How do inequities in housing, wealth, jobs, and education, along with a lack of power and control over one's life, translate into bad health?

This acclaimed, timely documentary shares compelling real-life stories to explore and explain “why your bank account, race, and zip code are more powerful predictors of healthiness than your medical coverage, habits and genes” (USA Today).
